Please let us know when a Scottish Society member moves or passes away. It is easy to lose track of our friends in today's busy world. Their family may not contact the Society and we don't always know why they did not renew. For life members, we may not know until mail starts coming back many months or even years later.

Masks and social distancing are not popular, but sometimes a simple solution is good. Even vaccinated people are catching the Delta variant. Vaccinated family members are much more likely to survive and may not show symptoms while spreading this deadly virus to kids who cannot and adults who will not get the jab. Needles are scary and COVID is deadly. Take your pick.
